TACTILE WARNING SYSTEM TILES

The most proven and trusted Detectable Warning Solution in the world.

Cast In Place Truncated Dome Detectable Warning Systems

- For use in new curb ramps or new construction
- Pressed into place in freshly poured concrete
- Cast-In-Place Tiles have a 1/4" nominal thickness and featured embedment ribs 3" on center through entire length of tile
- Plastic sheeting protection covers entire surface of Cast-In-Place Tile
- Standard sizes: 24" x 36", 24" x 48", 24" x 60", 36" x 48" and 36" x 60"

Replaceable Wet-Set Truncated Dome Detectable Warning Systems

- For use in new curb ramps or new construction
- Pressed into place in freshly poured concrete
- Plastic sheeting protection covers entire surface of Cast-In-Place Tile
- Standard sizes: 24" x 36", 24" x 48", 24" x 60", 36" x 48" and 36" x 60"

Surface Applied Truncated Dome Detectable Warning Systems

- For use in Retrofit applications or new construction
- Large perimeter beveled edges for smooth transition
- Secured with color matched fasteners and structural adhesive
- Surface applied tiles are 1/8" thick with beveled edges
- Standard sizes: 24" x 36", 24" x 48", 24" x 60", 36" x 48" and 36" x 60"

All Tactile Warning System tiles manufactured by ADA solutions, Inc. are designed to be installed on a concrete substrate. We do not recommend installing any of our products into asphalt, nor do we warranty such installations.

These Prowler series gas saws were designed to be economical and durable while providing the same quality and performance as the traditional Soff-Cut saws. We now have a Prowler saw for all size jobs. Designed with durability in mind, the Prowler saws can be recognized by their distinctive roll cage style. Much like the entire line of Soff-Cut saws, the Prowlers work in conjunction with Soff-Cut blades and patented skid plates to allow Ultra Early Entry™ concrete cutting, which minimizes chipping and spalling while getting the job done the same day.

Husqvarna FS 6600 D 36" Walk Behind Concrete Saw

Husqvarna

The FS 6600 D is a powerful and highly efficient saw. Its power / size ratio makes it an extremely versatile and super-productive saw in all cutting applications, particularly when the saw is equipped with the 3-speed gear box.

Husqvarna FS 4800 D 36" Walk Behind Concrete Saw

Husqvarna

The FS 4800 D is a professional and very versatile floor saw for mid-size jobs. It is available in front pivot or rear pivot configurations. A rear pivot saw is recommended when maneuverability is key in road repair jobs. The front pivot version is preferable for normal road sawing operations.

Husqvarna FS 520 20" Walk Behind Concrete Saw

Husqvarna

Series of floor saws with engine options from 13 to 24 hp. The floor saws are developed with a clear focus on ergonomics and user friendliness, featuring many innovative solutions that make your job easier. Their unique transmission makes them ideal for more demanding jobs, despite their compact size.

CHAIN SAWS

MS 271

16" Bar

STIHL®

A highly efficient engine will deliver 20% longer run times between refuelings – while cutting exhaust emissions in half compared to the MS 270. There's also a pre-separation air filtration system that's so effective, your air filter can last up to five times longer. All engineered into one compact, ergonomic design.

SKU#	PRICE
4910368	\$399.95

MS 181

16" Bar

STIHL®

This small chain saw has a powerhead weight of less than 10 pounds, and utilizes some of the same features found on our bigger saws, including a pre-separation air filtration system that means less maintenance for you. And if you're an eco-conscious consumer, you'll appreciate that this saw uses reduced-emission technology, without compromising on power.

SKU#	PRICE
480597	\$269.95

MS 251

18" Bar

STIHL®

The STIHL MS 251 Chain Saw is designed to deliver all the power you'd expect from STIHL equipment, yet with a comfortable and ergonomic design. It is perfect for felling small trees, pruning and thinning, and cutting firewood simply and efficiently.
